Appendix 3B 30 June 2015

Dear Shareholders,

Carnarvon Petroleum Limited ("Company") has an Employee Share Plan ("ESP") which is intended as an incentive for executives and employees to share in the ownership of Carnarvon in order to:

- Provide a strategic and value based reward for employees and executives who make a contribution to that success;
- Align executives and employees interests with the interests of our shareholders;
- Promote the retention of executives and employees; and
- Promote the long term success of the Company;

Each year, the Board of the Company set a number of strategic and value based targets for its executives and employees. The targets that have been outperformed in the 30 June 2015 financial year are as follows:

- Made an oil discovery in the Phoenix South-1 well;
- Divestment of Thailand asset interest in challenging industry conditions;
- Renegotiating Apache cost cap to cover all drilling and testing activities in WA-437-P, not only limited to drilling of the Roc-1 well;
- Cerberus project technical work completed and promotional activities commenced; and
- North West Shelf regional mapping, data base and software maturity significantly advanced

As a result of the outperformance in these targets, the Company has issued 3,950,081 ESP shares to 13 executives and employees who made a contribution to that success.

In addition to this, Carnarvon employees purchased 339,186 shares on market in the June quarter and accordingly the Company has issued those employees a matching ESP share for each share purchased on market. This facility encourages employees to regularly invest in the Company with their own funds.

It is worth noting that the ESP shares are issued to employees at 15 cents per share which is a premium of 30% to the current Carnarvon share price. Meaning the only value to our executives and employees is the amount of the increase in the share price above 15 cents (as the ESP shares are structured similarly to an option). The ESP shares are subject to a vesting period over three years meaning the interests of executives and employees are aligned with our shareholders in the longer term. Also, there is no cash outlay by the company when these shares are issued.
